TotalEnergies

Siteworks Request Form Removals & Disconnections

Section 1 Customer and Site Details (Site plans should always be provided with an application form)

Customer Organisation: This refers to the Gas Supplier contract account holder, which may be a parent or holding company. This is the actual end consumer of the gas supply. Please indicate your current or preferred gas supplier and also your account number if applicable.

Site Name & Address: Refers to the location that gas supply/meter is required. It is essential that you supply a post code where possible. Please give details of a site contact person who will be able to provide access to the site should a visit be required.

Correspondence: Refers to the person/company requesting the quotation and to whom all future correspondence will be directed. Please note that this does not necessarily refer to the person/company who will make payment for the works. Please advise us in writing if you require this to be changed at any point. Please supply an email address where possible as this will assist greatly with communications.

Section 2 Work Details

Please choose from the following options and provide more information if necessary. This refers to the works that you wish us to quote you for.

Meter Removal: If you require your existing meter to be removed it is essential to provide the MPRN and Serial Number of the relevant meter.

Service Isolation: If you require the gas service to be disconnected at the main - usually where demolition works are planned. Please note that the meter must be removed before the service can be isolated.

Preferred Date for Completion of Works: It is important to supply us with this date as it will help us to manage your project effectively. However, please note that this date is not binding in any way.

Section 3 Existing Meter Details

This section is applicable only if you require work to be done on an existing meter/service installation. Please provide details of the meter relevant to this enquiry only. If there are other meters on site, you may give details of these in the additional information section if you wish.

Existing MPRN: This is the unique reference number allocated to every service pipe installed. It can be found either tagged on the pipe or written on your gas bill. This information is essential.

Existing Meter Serial Number: This should be stamped on the meter and also written on your gas bill.

Section 4 Technical Information

Meter Position: Please state if the existing meter is located internally or externally. Please indicate the location on your site plan.

Trenching on Site: Please indicate if you wish on-site (private land) trenching to be included in your quotation, our contractors will carry-out all trenching on public ground.

Infrastructure Reference Number (if applicable): This is the reference number provided by the infrastructure provider responsible for isolation of gas service pipework.

Other Site Requests: Please indicate if any additional site requirements we should be aware of either prior or after issue of a quotation.

Section 5 Additional Information

Please use this space to inform us of any site characteristics e.g. close proximity to railways/dual carriageways/ water courses etc, any building constraints, site regulations/ inductions or any other relevant information. Please confirm all site restrictions possible on day of working – i.e. Permits to Work, Safety Cards, Site Safety Inductions, PPE etc.
